

### For All Short-Sighted Patients Treated Up to -12.00

### For Patients According to Initial Prescription

Results based on an analysis of 1200 procedures.

\*20/40 (6/12) means that the patient has to stand at 20 feet to see letters that a "normal" person could see at 40 feet - the UK minimum driving standard

\*20/16 (6/5) means that the patient can read letters at 20 feet that a "normal" person would have to stand at 16 feet to see (better than normal vision)
